

LABORATORY EQUIPMENT FOR SCHOOLS

Package No. ⁽¹⁾	Item Serial Number	Item Name	Qty
		Conical Flask 250ml	

Item Description

Conical flask is a type of laboratory glassware which consists of an inverted conical base with a cylindrical neck. The main advantage of this flask is that it is less likely to tip over than a beaker and the smaller neck which slows evaporative loss. It can also be swirled without fear of the contents spilling. The product should meet international quality standard.
