

LABORATORY EQUIPMENT FOR SCHOOLS

Package No. ⁽¹⁾	Item Serial Number	Item Name	Qty
		Constant Pressure Head Unit	

Item Description

The constant pressure head unit is used to maintain a constant water pressure head. The transparent cylinder is used as a water tank which is continuously filled. It is possible to adjust the water level as required by pulling out or sliding in the adjustable overflow. The fixed overflow pipe prevents the overflow of the tank. The product should meet international quality standard.
