Overview

Sri Lanka Fishery Industry

Sri Lanka has a well established fisheries industry which represents a major component of the national economy. It is a major source of animal protein for the people of Sri Lanka and makes an efficient contribution to the GDP. Sri Lanka's fisheries industry consists of three main sub-sectors, namely coastal fisheries (offshore and deep sea fisheries), freshwater fisheries and aquaculture.

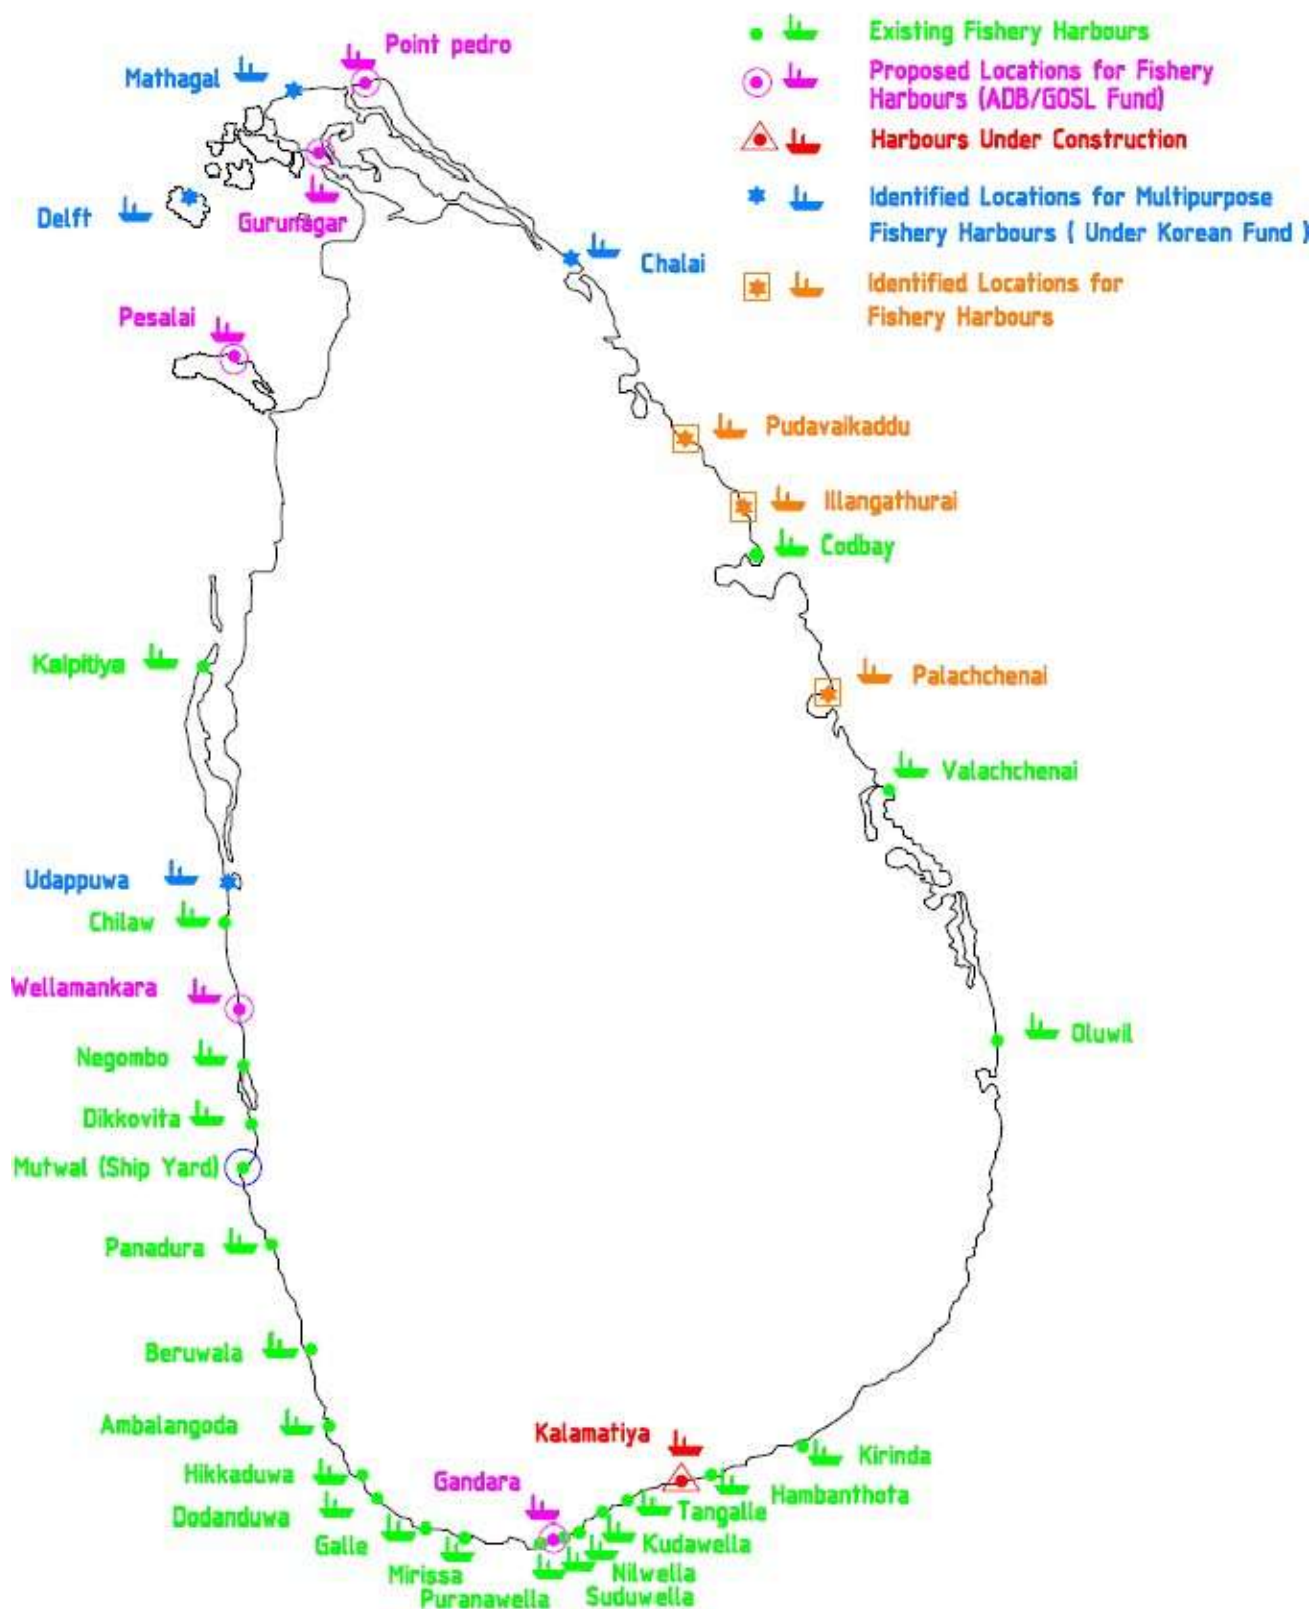

The fisheries sector has grown by 5% over the past four years, with the UK, France, Italy, Japan, the Netherlands and the United States being the main buyers. The diagrams below illustrate some of the major sub-sectors of the Sri Lankan fisheries sector in the year 2019.

Our corporation

Brief History of CFHC

The Ceylon Fishery Harbours Corporation (CFHC) was established in 1972 and is primary responsible for delivering quality fishery-harbour related services and providing the fishing community with modern infrastructure and facilities. Since inception the corporation has developed year-by-year and recently adopted an exciting development plan, which is in line with the Sri Lankan government's overall development plan. The CFHC's development plan outlines a range of proposed projects: amongst the suggested action points are those relating to both managements of the Cooperation and its business development strategy. It is expected the successful completion of this plan will help the Sri Lankan fishing industry to compete effectively with other prominent fishing-oriented countries in the region

Since its inception the CFHC has focused its effects on improving the standards of fishing for local fishermen. Necessity has prompted the fishery harbour initiatives and Expansion programmed, Thotupola Aruna. Under this program several steps are to be taken to upgrade existing harbours, to build new fishery harbours and to develop new business opportunities. It is expected that as part of the Fishery harbour initiation and Expansion programmed, Thotupola Aruna, the Corporation will begin to examine the feasibility of new ventures and opportunities. These new ventures include Marinas and the development of marine-related sporting and leisure activities, such as diving, whale and Dolphin watching. In addition, the increased efficiencies to be achieved by implementing new technology are clear. This has led to the introduction of the enterprise Resource Planning for the CFHC and a communication system for the harbours in addition to a Vessel Monitoring System which is expected to facilitate the CFHC's role as the fundamental resource of the Sri Lankan fisheries industry and as a facilitator of the region's maritime enterprise.

Role & Function

The Port Commission which was under the Ceylon Government built break waters in the fishery harbours, and the first such harbour was at the Beruwala Fishery Harbour. In the decade of 1980, the Ceylon Fishery Harbours Corporation had decided to entrust all the commercial activities to the Fishery Co-operative Societies and private sector. The activities such as planning and construction of fishery harbours and anchorages, maintenance of off-shore structures and other coastal facilities, supervision of the economic aspect of the implementation phases of the construction activities, dredging and excavation activities of the fishery harbours for facilitating maintenance work were carried out by Corporation. As a result of a restructuring programme implemented in the Ceylon Fishery Harbours Corporation in 1991, the total strength of the staff at the corporation was reduced to 129. In keeping with the re-modernization of fisheries harbours and construction of new fisheries harbours program, the required cadre was restructured and after due categorization, the treasury approval was obtained in the year 2013 to increase the strength of employees up to 1015. As at the end of the year 1994, the number of fishery harbours and anchorages had increased to 10. In 1995, with the assistance of the Asian Development Bank, a new management structure was introduced to the fishery harbours of Beruwala, Galle, Mirissa, Puranawella and Kirinda. Open gate system was suspended and the Ceylon Fishery Harbours Corporation embarked on a well-managed fishery harbour programme. In keeping with this, a system where fishery harbours administered by managers were introduced. Under this scheme, a proper system of management and proper use of fishery harbours was initiated constructing of boundary walls, infrastructure, operating of security services etc.

When the tsunami disaster occurred, the Ceylon Fishery Harbours Corporation had 12 fishery harbours in operation around the island, and except for a few fishery harbours, 10 fishery harbours (Panadura, Beruwala, Hikkaduwa, Galle, Mirissa, puranawella, Tangalle, kudawella, Kirinda) including coastal infrastructures, off-shore structures, break-waters, sand breakers etc. were completely destroyed by this tsunami ravage. The dredging machine belonging to the fishery harbour too was badly damaged. Reconstruction of 10 fishery harbours destroyed by the tsunami disaster and new construction activities, and reconstruction works of anchorages, coastal facilities were carried out by the following state institutions and organizations.

Part 03

Accounting Policies

Description of business

The Ceylon Fishery Harbors Corporation (CFHC) was established in 1972 and is primary responsible for delivering quality fishery–harbours related services and providing the fishing community with modern infrastructure and facilities. Since inception the corporation had developed year-by-year and recently adopted an exacting development plan, which is in line with the Sri Lankan government’s overall development plan. The CFHC’s development plan outlines a range of proposed projects: amongst the suggested action points are those relating to both managements of the Corporation and its business development strategy. It is expected the successful completion of this plan will help the Sri Lankan fishing industry to complete effectively with other prominent fishing-oriented countries in the region.

Accounting Assumptions Accrual basis

In order to meet the objectives, the financial statement is prepared on the accrual basis of accounting. Under this basis the effects of transactions and other events are recognized when occur (and not as cash or its equivalent is received or paid) and recorded in the accounting records and reported in the financial statement of the period to which relate.

Going concern

These accounts have been prepared under the Historical Cost Convention on the basis of going concern and will continue in operation for the foreseeable future. The revenue recognized and the expenses accounted on their accrual, in accordance with the generally accepted Sri Lanka Accounting Standards.

Grants

Grants received from the Treasury and other donor organizations have been identified as Capital & Recurrent and accounted accordingly.

Capital Payments

Capital Payments have been debited to work in progress account and several capital expenses have been capitalized direct to the capital work.

Liabilities and Provisions

(a) Retirement Benefit Obligation

Provisions have been made for retirements Gratuities payable under the payments of Gratuity Act No. 12 of 1983 for all employees who have completed over one year of service from the date of joining the corporation.

(b) Employees Provident Fund and Employees Trust Fund

Employees are eligible for Employees Provident Fund contribution and Employees Trust Fund Contributions in line with respective statutes and regulation. The company contributes 15% and 3% of consolidated salary of employees Provident Funds and Employees Trust Fund respectively.

(c) Provision for Doubtful Debts

Provision for doubtful debts is created by forming a credit balance which is netted off against the selected receivables appearing in the balance sheet. A corresponding debit entry is recorded to account for the expenses of potential loss.

Property, plant and equipment; acquisition-related intangibles and other capitalized costs

Property, plant and equipment are stated at cost and depreciated over their estimated useful lives using the straight-line method. Our cost basis includes certain assets acquired in business combinations that were initially recorded at fair value as of the date of acquisition. Leasehold improvements are amortized using the straight-line method over the shorter of the remaining lease term or the estimated useful lives of the improvements.

Depreciation

Depreciation has been charged on fixed assets on straight line basis from the month of addition & to the month of sale at the rates specified as follows.

Lands	-
Buildings	-2.5%
Internal Road& Boundary Wall	-2.5%
Break Water & Quay Wall	-2.5%
Machinery	-10%
Tools & Office Equipment `	-10%
Furniture & Fittings	-10%
Boats & Dredging	-10%
Internal & Information System	-20%
Motor Vehicle	-10%
Heavy Vehicle	-10%
Internet Information System	-20%

Foreign Currency Transactions

Transactions in foreign currency are accounted for at the exchange rates prevailing at the time of transaction. However, in case of transactions taking place through bank accounts maintained in foreign currency, the same are recorded at national rates. Balances in such foreign currency accounts at the yearend are converted at the prevailing exchange rates. Current assets and liabilities at the yearend are restated at the prevailing exchange rates and the difference between the year end and the actual / national rates is recognized as gain or losses in the Accounts.

Taxation

Income Tax

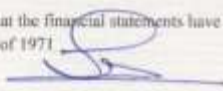

No provisions have been made in the accounts as there is taxable income for the current year

Copies : 1. Secretary - State Ministry of Ornamental Fish, Freshwater Fish and Shrimp Farming, Fisheries Harbor Development, Multi-Day Fisheries and Fish Exports.

2. Secretary - Ministry of Finance.

Chairman,

Ceylon Fishery Harbours corporation

Report of the Auditor General under Section 12 of the National Audit Act No. 19 of 2018 on the financial statements and other legal and regulatory requirements of the Sri Lanka Fisheries Harbours Corporation up to 31 December 2019.

1. Financial statements

.....

1.1. Dissent

.....

Statement of Finance of the Sri Lanka Fisheries Harbours Corporation as at 31st December 2019 and Earnings Report for the year ended thereafter, Notice of change of title and cash flow statement and financial statement for the year ending thereafter, Financial Statements for the Final Year of Article 154 (1), 31 December 2019 of the Constitution of the Democratic Socialist Republic of Sri Lanka, National Audit Act No. 2018 summarizing the key accounting principles. 19 and audited under my guidance under the provisions of Finance Act No. 38 of 1971. My report under Article 154 (6) of the Constitution will be tabled in Parliament in due course.

I do not comment on the financial statements of the Corporation. I could not obtain sufficient and relevant audit evidence to provide a basis for the audit opinion on these financial statements, Because of the importance of the points discussed in terms of disagreement.

1.2 The basis for disagreement

- (A) Inner street network of Puranawella fishing harbor Advance payment of Rs. 1,788,400 on March 07, 2019 for the renovation The account was credited without being accounted for as happening Because of this, The loss for the year under review was higher than the financial statements.
- (B) Construction work of the web processing hall at the Puranawela fishing harbor on 16 May 2019 Although completed The contract value is Rs. 6445,061 are listed in the financial statements under the current job instead of being calculated as assets.
- (C) Chilaw and Mirissa fishing harbours as green fishing harbours In return for providing consulting services before and after the contract for development Received Rs. 4,906,175 Instead of calculating consultancy service fees as other income in financial statements Referred to as Ministry Grants Receipts. Because of this, The loss for the year under review was higher in the financial statements.

- (D) 107,330,143 Trade and other receivables subject to changes in working capital in cash flow statement, But according to the information in the financial statements, the change was Rs.119,763,903 Therefore, The bonus payment was Rs.10,110,436. Rs. 9,636,797 as shown in the cash flow statement. As a result, cash flow The audit could not be satisfied with the accuracy of the report.
- (E) Handed over to the Corporation after development Lands of 16 fishery harbours currently in use by the Corporation Their valuation is not shown in the financial statement unless adopted by the corporation. Also, the wide anchor is worth Rs 282,705,399 At cost, Myladi fishery harbours at a cost of Rs. 94,504,496 Although the building was completed and handed over to the Corporation last year and the following year, respectively. Such as capital subsidies and Action to make financial statements about assets Not taken.
- (F) The appraised value of assets purchased from other capital inflows was higher than Rs.19,092.251 in the financial statements. Because of this, The value of these assets and other capital receipts, respectively The financial statements were less than the above figures. Further, According to the Capital Grant Policy of the Machinery Corporation, As on 31st December 2019, Rs. 128.47 million under capital subsidy The total cost of the purchase was not deducted.
- (G) As outlined in the financial statements, Activities during the year reviewed at Myladi fishing harbor And for expenses mentioned in the relevant table Rs.11,518,334 difference As stated in the financial statements, Annual fuel for shipping owned by the Corporation Also the fuel physical stocks mentioned in the financial statements Between value and physical stock value A change of 81,111 liters of fuel was also observed which was Rs. 7,957,638. However, the reasons for these changes have not been explained to the audit.
- (H) 2004 for the reconstruction of property damaged by the tsunami disaster Of the Rs.945,559,937 allocated for the year, Those assets are amended and shown in the financial statements under capital receipts. However, Depreciation has been shown to be non-compliance with capital receipts of financial statements under hold for more than 15 Years on related assets.
- (I) The financial statements revealed that the property leased by the corporation under the operational lease scheme was shown in its financial statements at its fair value. However, The fair value of 87 leased properties is calculated and Details of these investment assets were not disclosed in the financial statements until the financial statements.
- (J) The total cost is Rs. 6,554,375,576 Fixed property registration for 23 types of immovable property, 02 Useful Documents and Balance Sheet Letters Related to Business Debt Arrears Rs.108,700,043 Ministry grants and other grants Rs.214,635,319 and Rs.838,173,660 activities from Asian Development Bank and Details of assets invested, Total cost related to 04 subjects, Comprehensive for current assets of Rs.116.8 million Tables and Rs. Sources for 6,768,012 press releases Not submitted, Evidence such as utility documents could not be satisfactorily tracked or accepted during the audit.
