Government Grant value of of Rs.159.4 millon received in year 2023 and 2024 relating to payment of compensation for volunteer retirement scheme is credited to equity.

### 1.2 Date of Authorization for Issue

The financial statements of the Independent Television Network Limited for the year ended 31 December 2024 were authorized for issue in accordance with resolution of the Board of Directors dated 27<sup>th</sup> February 2025.

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Basis of Preparation

The financial statements of Independent Television Network Ltd have been prepared in accordance with Sri Lanka Accounting Standards (SLFRSs). The preparation of financial statements in conformity with Sri Lanka Accounting Standards (SLFRSs) requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the company accounting policies. The areas involving a higher degree of judgments or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 5.

The financial statements have been prepared on the historical cost basis and apply consistently with no adjustments been made for inflationary factors affecting the financial statements, except for that, the Defined benefits obligation is measured at its present value, based on the projected unit credit method using gratuity formula.

### 2.2 Changes in Accounting Policies

The changes in accounting policies set out below have been applied consistently to the periods presented in the financial statements, unless otherwise indicated.

The presentation and classification of the financial statements of the previous year have been amended, where relevant, for better presentation and to be comparable with those of the current year.

### 2.3 Segment Reporting

An operating segment is a component of the company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the company's other components. All operating segments 'operating results are reviewed regularly by the Board to make decisions about resources to be allocated to the segment and assess its performance. The operating segments are organized and managed separately according to different channels that company has. Detailed information on the results of each operating segment is provided in Note 34.

### 2.4 Going Concern

The Directors have made an assessment of the company's ability to continue as a going concern and they do not intend either to liquidate or to cease trading.

### 2.5 Events Occurring after the Reporting Period

All material events after the reporting date have been considered and where appropriate adjustments or disclosures have been made in the respective notes to the financial statements.

### 2.6 Commitments

All material commitments at the reporting period end have been identified and disclosed in the notes to the financial statements.

### 2.7 Foreign currencies

### (a) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in Sri Lankan Rupees, which is the Company's functional and presentation currency.

### (b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement.

### 2.8 Property, Plant and Equipment

Property, plant and equipment are initially recognized at cost including the cost of purchase with any incidental expenses incurred in bringing the assets to its working conditions, for its intend use. Subsequent to initial recognition, property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Expenditure incurred for the purpose of acquiring, extending or improving assets of permanent nature has been treated as capital expenditure. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Expenditure incurred on repairs or maintenance of property, plant and Equipment in order to restore or maintain the future economic benefits expected from originally assessed standard of performance, is recognized as an expense when incurred.

### 2.8.1 Depreciation

Land is not depreciated. Provisions for depreciation for other assets are calculated by using a straight-line method to allocate their cost over their estimated useful lives, as follows:

| Depreciation              | Useful Years |
|---------------------------|--------------|
| Buildings                 | 20           |
| Plant and Machinery       | 02 - 15      |
| Audio Frequency Equipment | 04 - 08      |
| Furniture and Fittings    | 08           |
| Transmitter               | 08           |
| Motor Vehicles            | 04           |
| Library Books             | 04           |
| Tools                     | 04           |
| Office Equipment          | 04           |

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and gain / (loss) is recognized in the statement of comprehensive income.

### 2.8.2 Capital Work-in-Progress

Capital work-in-progress represents the accumulated cost of materials and other costs directly related to the construction of an asset. Capital work-in-progress is transferred to the respective asset accounts at the time it is substantially completed and ready for its intended use.

### 2.8.3 Intangible Assets

### a) Computer Software

Computer software are recognized as intangible assets if it is probable that future economic benefits that are attributable to the assets will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets acquired are stated at cost less accumulated amortization and accumulated impairment losses. These costs are amortized over their estimated useful lives of 5 years.

### INDEPENDENT TELEVISION NETWORK LTD NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER 2024

### b) Telecasting Rights

Licenses for telecasting rights are recognized as intangible assets if it is probable that future economic benefits arising from sale of services will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at cost less accumulated amortization and accumulated impairment losses. These costs are amortized to the extent of related income recognized.

90% of the Telecasting right Expenses 10% of the Telecasting right Expenses -First run to Telecast -Second run to Telecast

Impairment of Non – Financial Assets

At each end of reporting period, the company reviews the carrying amounts of its property, plant and equipment and intangible assets to determine whether there is any indication that those assets have impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company determines the cash-generating units (CGUs) and estimates the recoverable amount of the CGUs to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset and CGUs is estimated to be less than its carrying amount, the carrying amount of the asset and CGUs is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of comprehensive income.

### 2.9 Financial Assets

2.8.4

### (a) Classification

The company determines the classification of its financial assets at initial recognition and classifies its financial assets as follows:

- I. Loans and receivables
- II. Available-for-sale (AFS) Financial Assets

### I. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are included in current assets, except for maturities greater than 12 months after the end of the reporting period, which are classified as non-current assets. The company's loans and receivables comprise corporate loans, advances cash and cash equivalents in the end of reporting period.

### II. Available-for-sale (AFS) Financial Assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period. Available for sale financial assets comprise of long term unquoted equity investments and Debt Securities.

### (b) Recognition and Initial Measurement

Financial assets classified as loans and receivables are recognized on the date on which the company originates the transaction. Other financial assets are recognized on the trade-date on which the company becomes a party to the contractual provision of the financial instrument.

A financial asset is measured initially at fair value plus, in the case of assets not at fair value through profit or loss, directly attributable transaction costs.

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the company has transferred substantially all risks and rewards of ownership of the financial assets.

### (c) Subsequent Measurement

### I. Loans and receivables

Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less provision for impairment.

### II. Available for sale Financial Assets (AFS)

Subsequent to initial recognition, available-for-sale financial assets are measured at fair values, less provision for impairment.

### (d) Impairment of financial assets

### I. Assets carried at amortized cost

The company assesses at the end of each reporting period whether there is objective evidence that a financial asset is impaired. A financial asset is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset that can be reliably estimated.

For loans and receivables carried at amortized cost, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future

credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the financial assets is reduced and the amount of the loss is recognized in the

statement of comprehensive income. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the reversal of the previously recognized impairment loss is recognized in the statement of comprehensive income. The corporate loans receivables are assessed individually for impairment.

### II. Available-for-sale (AFS) Financial Assets

The company assesses at the end of each reporting period whether there is objective evidence that a financial asset is impaired. For unquoted equity investments, a significant or prolonged decline in the value of the investments below its cost is also evidence that the assets are impaired. If any such evidence exists for the unquoted investments, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

### 2:10 Trade Receivables

Trade receivables are amounts due from customers for the services rendered in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognized initially at fair value and subsequently measured at the transaction price (original invoice value) less provision for impairment as they are expected to be received within short term, such that the effect of discounting immaterial.

Provision for impairment of trade receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization and an increase in the number of delayed payments past the maximum credit period of three months are considered as indicators that the trade receivable is impaired. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognized in the statement of comprehensive income within distribution cost.

When a trade receivable is uncollectible, it is written off against the allowance account for trade receivable. Subsequent recoveries of amounts previously written-off are credited against distribution cost in the in the statement of comprehensive income.

Significant trade receivables are assessed individually for impairment and Non- significant trade receivables are assessed for impairment on collective basis.

The model and basis used to assess the trade receivables for impairment as follows:

Notes to the Financial Statements Continued

### INDEPENDENT TELEVISION NETWORK LTD NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER 2024

- (a) Individual Evaluation Model: Following types of trade receivables are reviewed individually to measure the impairment loss.
  - i.) Government Institution 100% provision only if there is an objective evidence for impairment.
  - ii.) Commercial Clients Significant Clients 100% provision only if there is an objective evidence for impairment.
- (b) Collective Evaluation Model: Following types of trade receivables are reviewed collectively to measure the impairment loss.
  - i) Commercial Clients Non-Significant Clients Probability Model.

#### 2.11 Inventories

Inventories are stated at cost. Cost is determined on a weighted average basis. Inventories comprise of spare parts, stationeries and fuel and lubricants. Inventories are for consumption not for re-sale.

#### 2.12 Cash and Cash Equivalents

In the statement of cash flows, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less.

#### 2.13 Share Capital

Share capital is paid out of consolidated fund and ordinary shares are classified as equity.

#### 2.14 **Financial Liabilities**

The company classifies financial liabilities into other financial liabilities. The company's other financial liabilities include other payables, interest bearing loans and amounts due to related parties. The other financial liabilities are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortized cost using the effective interest method. The company derecognizes a financial liability when its contractual obligations are discharged, cancelled or expired.

#### 2.15 Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the statement of comprehensive income over the period of the borrowings using the effective interest method.

Borrowing costs are recognized in comprehensive income statement in the period in which they are incurred.

#### 2.16 Current and Deferred Tax

The tax expense for the period comprises current and deferred tax. Tax is recognized in the income statement, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

### a) Current Taxation

Current tax liabilities arise to the company in accordance with the provisions of the Inland Revenue Act No. 10 of 2006 and amendments thereto. These liabilities are provided for in the Financial Statements applying the said provisions which the management believes reflect actual liability.

### b) Deferred income Tax

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred Tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against utilized. Deferred Tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Page 9

Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the year when the asset is realized or the liabilities settle, based on the tax rates and the tax laws that have been enacted or substantially enacted as at the reported date.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

### 2.17 Employee Benefits

### a) Defined Benefits Obligation

The company obligation in respect of defined benefit plan is the present value of the defined benefits obligation at the end of the reporting period. The defined benefits obligation is calculated by independent actuaries using the projected unit credit method. The present value of the defined benefits obligation is determined by discounting the estimated future benefit that employee have earned in return for their services in the current and prior period.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

The company will re-measure the define benefit obligation when the amounts recognized in the financial statements will differ materially from the amount that would be determine at the end of the reporting period.

Past service costs are recognized immediately in the statement of comprehensive income. The retirement benefits obligation is not externally funded.

### b) Defined Contribution Plans

All employees of the company are members of the Employees 'Provident Fund and Employees 'Trust Fund, to which their employer contributes 15% and 3% respectively of such employees' basic or consolidated wage or salary, cost of living and all other allowances.

### 2.18 Government Grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions.

Government grants relating to costs are recognized in the statement of comprehensive income when grants are received.

Government grants relating to property, plant and equipment are included in non-current liabilities as deferred government grants and are credited to the statement of comprehensive income on a straight-line basis over the expected lives of the related assets.

### 2.19 Provisions

Provisions for operational expenses are recognized when the company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required from the company and amounts can be estimated reliably.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation.

### 2.20 Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation.

A contingent liability also arises in extremely rare cases where there is a liability that cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the Financial Statements.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company. The company does not

Notes to the Financial Statements Continued

### INDEPENDENT TELEVISION NETWORK LTD NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER 2024

recognize contingent assets but discloses its existence where inflows of economic benefits are probable, but not virtually certain.

### 2.21 Trade Payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognized initially at fair value and subsequently measured at the original invoice amount as they are expected to be paid within a short period, such that the time value of money is not significant.

### 2.22 Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

The company leases certain property, plant and equipment. Leases of property, plant and equipment where the company has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments.

Each leases payment is allocated between the liability and finance charges. The corresponding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the reaming balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease term.

### 3. Comprehensive Income

### 3.1 Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for services supplied, stated net of Value Added Taxes (VAT). The company recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity.

The company applies the revenue recognition criteria set out below to each identifiable major types of services rendered.

### (a) Sale of Air time

Revenue comprises the invoiced value of sale of air time net of Value Added Tax (VAT), Revenue is recognized when the advertisement is telecasted.

### (b) Production Income

Revenue comprises the invoiced value of sale of air time net of Value Added Tax (VAT), Revenue is recognized when the production is telecasted.

### 3.2 Interest income

Interest income is recognized using the effective interest method.

### 3.3 Rental Income

Rental income is recognized on an accrual basis over the term of rent periods.

### 3.4 Net Gains and Losses on Disposals of Property, Plant & Equipment

Net gains and losses on disposal of an item on property, plant & equipment are determined by comparing the net sales proceeds with the carrying amount of property, plant & equipment and are recognized in the statement of comprehensive income.

### 3.5 Other Income

All other incomes are recognized on accrual basis

Notes to the Financial Statements Continued

### 3.6 Operating Expenses

Expenses are recognized in the income statement on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running in the business and in maintaining the property, plant and equipment in a state of efficiency has been charged to income in arriving at the profit / (loss) for the year.

### 4. Sri Lanka Accounting Standards (SLFRS/LKAS) issued but not yet effective

Standards issued but not yet effective up to the date of issuance of the financial statements are listed below. The company intends to adopt those standards when they become effective.

- I. SLFRS 9-Financial Instruments: SLFRS 9, issued in 2014, replaces the exciting guidance in LKAS 39 Financial instruments; Recognition and Measurement. SLFRS 9 includes revised guidance on the classification and measurement of financial instrument, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forwards the guidance on recognition of financial instrument from LKAS 39. Effective date of IFRS 9 is 1 January 2018.
- II. SLFRS 15 Revenue from contracts with customers: SLFRS 15 establish a comprehensive framework for determining whether, how much and when revenue is recognized. It replace existing revenue recognition guidance, including LKAS 18 Revenue and LKAS 11 construction Contracts. SLFRS 15 is effective for annual reporting period beginning on or after 1 January 2017.

The Company is assessing the potential impacts on its financial statements resulting from the application of SLFRS 15 / SLFRS 9.

### 5. Significant Accounting Estimates and judgments

When preparing the financial statements, management undertakes a number of judgments, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

I. The following are significant judgments in applying the accounting policies that have most significant effect on the financial statements.

### (a) Recognition of Deferred Tax Assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized.

II. Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below:

### (a) Useful life time of depreciable assets

Management reviews its estimate of the useful lifetime of depreciable assets at each reporting date, based on the expected economic utility of the assets.

### (b) Defined benefit plan

The present value of the defined benefit plan obligations depends on a number of factors that are determined on projected unit credit method using a number of assumptions. The assumptions are used in determining the net cost and obligation for defined benefit plan including the discount rate disclosed in the note 25. Any changes in these assumptions will impact the carrying amount of defined benefits obligation. INDEPENDENT TELEVISION NETWORK LIMITED

Staff loans are measured at fair value using the interest rate of 4.2% instructed by the Government circular under procurement guidelines para XXIV subsection 3.8. Since the company is covered under establishment code, the rate at which the loans have been granted is considered as the market interest rate for employees working at government organizations.
