These financial statements have been prepared in accordance with the Sri Lanka Accounting Standards (LKAS and SLFRS) laid down by the Institute of Chartered Accountants of Sri Lanka.

The financial statements have been prepared on historical cost basis except where appropriate disclosures are made with regard to fair value under relevant notes. Assets and liabilities are grouped by nature and in an order that reflect their relative liquidity.

Information about significant areas of estimates, uncertainty and critical judgments in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements are included in notes to the financial statements

# FOR THE YEAR ENDED 31ST MARCH 2024

### 2.3 A:Taxation

# (a) Current Tax

The provision for income tax is based on the elements of income and expenditure as reported in the financial statements and computed in accordance with the provisions of the Inland Revenue Act No. 10 of 2006 and subsequent amendments thereto.

### (b) Deferred Tax

Deferred Tax is provided using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities for the financial reporting purpose and amounts used for tax purpose. Deferred tax is measured at the tax rate that is expected to apply to temporary differences when they are reversed, based on the laws that have been enacted by the reporting date.

Deferred tax assets are recognized to the extent that is probable that future taxable profits will be available against which such timing difference can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

# 2.4 Valuation of Assets & Their Bases of Measurement

# 2.4.1 Property, Plant & Equipment

Property, plant and equipment are stated at cost or fair value less accumulated depreciation and any accumulated impairment in value. The carrying values of property plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. All items of property, plant and equipment are initially recorded at cost. Where items of property, plant and equipment are subsequently revalued, the entire class of such assets is revalued at fair value. Revaluations are done with sufficient regularity. When an asset is revalued, any increase in the carrying amount is credited directly to a revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in the statement of comprehensive income, in which case the increase is recognized in the statement of comprehensive income. Any revaluation deficit that offsets a previous surplus in the same asset is directly offset against the surplus in the revaluation reserve and any excess recognized as an expense. Upon disposal, any revaluation reserve relating to the asset sold is transferred to retained earnings. Items of property, plant and equipment are derecognized upon replacement, disposal or when no future economic benefits are expected from its use.

# FOR THE YEAR ENDED 31<sup>ST</sup> MARCH 2024

All items of property, plant and equipment are initially recorded at cost. Where items of property, plant and equipment are subsequently revalued, the entire class of such assets is revalued at fair value. Revaluations are done with sufficient regularity. When an asset is revalued, any increase in the carrying amount is credited directly to a revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in the statement of comprehensive income, in which case the increase is recognized in the statement of comprehensive income. Any revaluation deficit that offsets a previous surplus in the same asset is directly offset against the surplus in the revaluation reserve and any excess recognized as an expense. Upon disposal, any revaluation reserve relating to the asset sold is transferred to retained earnings. Items of property, plant and equipment are derecognized upon replacement, disposal or when no future economic benefits are expected from its use.

# FOR THE YEAR ENDED 31<sup>ST</sup> MARCH 2024

# 2.4.3 Financial Assets (Non-derivative)

The Company initially recognizes loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognized initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to réceive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

For the purpose of classification of financial assets the assessment of the company's financial asset was made as of the date of initial application, 1 April 2020, and then applied retrospectively to those financial assets that were not derecognized before 1 April 2020. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets. The classification and measurement requirements of SLFRS 9 did not have a material impact on the company's results and financial position, therefore the company has not restated comparative information for prior periods.

The Company has the following financial assets (non-derivative):

- Loans and receivables
- Cash and cash equivalents

## (a) Loans & Receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses. Loans and receivables comprise trade and other receivables.

(c) Cash & Cash Equivalents

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less. Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a Component of cash and cash equivalents for the purpose of the statement of cash flows.

# FOR THE YEAR ENDED 31<sup>ST</sup> MARCH 2024

Cash and cash equivalents comprise cash in hand and deposits at bank. Bank overdraft is included as a component of cash and cash equivalents for the purpose of the statement of cash flows, which has been prepared using the indirect method.

# 2.4.4 Impairment

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired.

A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

The Company considers evidence of impairment for receivables at collective level. All receivables with similar risk characteristics are grouped together and collectively assessed for any impairment that has been incurred but not yet identified.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through the profit or loss.

# 2.4.5 Inventories

Inventories comprise processed, unprocessed and semi-processed agricultural produce, and other consumables. Processed, Unprocessed and semi-processed agricultural produce at the end of the financial period is considered as fully processed agricultural produce and is measured at net realizable value.

Other consumables are measured at lower of cost or net realizable value. When the inventories are sold, the Company recognizes the carrying amount of those inventories as an expense in the period in which the related revenue is recognized.

# FOR THE YEAR ENDED 31<sup>ST</sup> MARCH 2024

# 2.5 Liabilities & Provisions

Liabilities are recognized in the statement of financial position when there is a present obligation arising from past event, the settlement of which is expected to result in an outflow of resources embodying economic benefits. Obligations payable at the demand of the creditor or within one year of the financial position date are treated as current liabilities in the statement of financial position. Liabilities payable after one year from the financial position date are treated as non-current liabilities in the statement of financial position.

A provision is recognized in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits for which a reliable estimate could be made is required to settle the obligation.

# 2.5.1 Retirement Benefit Obligations

# (a) Defined Benefit Plan - Gratuity

A full provision has been made on account of retiring gratuity from the first year of employment in conformity with the Sri Lanka Accounting Standard No.19- 'Retirement Benefits' according to the actuarial valuation.

Staff Turnover Rates: 1.00% across the board up to age 54 and thereafter zero

Normal Retirement Age: 60 years (The employee who are aged over the specified retirement age have been assumed to retire on their respective next birthday)

Rate of Discount: 18.00% p.a.

Salary Escalation Rates: Basic Salary: Staff: 13.00% p.a.; Increments are due every year in the Month specified in the data.

Basic Salary: Daily paid workers: 13.00% p.a.; with next increment due in April 2021.

Allowances: N/A

Retiring Gratuity Formula: Staff: Half month's Salary plus Allowances for each completed year of service for those with at least 5 years' service.

Daily paid workers: 14 days wages for each completed year of service for those with at least 5 years' service.

# FOR THE YEAR ENDED 31<sup>ST</sup> MARCH 2024

# (b) Defined Contribution Plan - Employees' Provident Fund& Employees' Trust Fund

Employees who are eligible for Employees' Provident Fund contributions and Employees' Trust Fund contributions in line with respective statutes and regulations.

# 2.6 Statement of Comprehensive Income

# 2.6.1 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue and associated costs incurred or to be incurred can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable net of sales discounts and sales taxes.

# (a) Sale of Goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer with the Company retaining neither a continuing managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold.

# (b) Gains & Losses

Net gains and losses of a revenue nature arising from the disposal of property, plant and equipment and other non-current assets, including investments, are accounted for in the income statement, after deducting from the proceeds on disposal, the carrying amount of such assets and the related selling expenses. Gains and losses arising from activities incidental to the main revenue generating activities and those arising from a group of similar transactions which are not material, are aggregated, reported and presented on a net basis.

Any losses arising from guaranteed rentals are accounted for in the year of incurring the same. A provision is recognized if the best estimate indicates a loss.

# (c) Interest Income

Interest income is recognized on accrual basis using effective interest method (EIR).

# (d) Other Income

Other income is recognized on an accrual basis.

# FOR THE YEAR ENDED 31ST MARCH 2024

# 2.6.2 Expenditure Recognition

Expenses are recognized in the statement of comprehensive income on the basis of a direct association between the cost incurred and the earnings of specific items of income. All expenditure incurred in the running of the business and in maintaining the property, plant and equipment in a state of efficiency have been charged to the statement of comprehensive income. For the purpose of presentation of the statement of comprehensive income, the "function of expenses" method has been adopted, on the basis that it presents fairly the elements of the Company's performance.

# 2.7 Basic Earnings/ (Loss) Per Share

The Company presents Basic Earnings/ (Loss) Per Share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

# 2.8 Comparatives Information

Comparative information including quantitative, narrative and descriptive information is disclosed in respect of the previous period for all amounts reported in the financial statements in order to enhance the understanding of the financial statements of the current period and to improve the inter- period comparability. When the presentation or classifications of items in the financial statements have been amended, comparative amounts have also been reclassified to conform with the current year in order to provide a better presentation.

# 2.9 Events Occurring after the Reporting Date

All material post events of statement of financial position have been considered, and where appropriate adjustments or disclosures have been made in respective notes to the financial statements.
