ACCOUNTING POLICIES TO THE FINANCIAL STATEMENT

FOR THE YEAR ENDED 2019

01. CORPORATE INFORMATION

Reporting Entity

Ceylon Fisheries Corporation formerly known as CFC (the "Corporation") is a Corporation domiciled in Sri Lanka. The Corporation was incorporated an Industrial Act. In 1957 no 49 and commencement of operation since 1964. The registered office of the Corporation is Rock House Lane, Colombo 15.

The principal activity of the Corporation during the financial year was the sale of Fish harvest throughout the country and sale of Ice production to the fisherman.

SUMMERY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

Statement of compliance

The financial statements of the Corporation have been prepared in accordance with Sri Lanka Accounting Standards (LKAS) and Sri Lanka Financial Reporting Standards (SLFRS) adopted by the Institute of Chartered Accountants in Sri Lanka and the requirements of the Public accounting standards.

The financial statements were authorized for issue by the directors on 22nd October 2019

Basis of measurement

The financial statements have been prepared on the historical cost basis except where stated.

Functional currency

The financial statements have been prepared in Sri Lankan Rupees ("LKR") which is the Corporation's functional currency.

Comparative Information

The accounting policies have been consistently applied by the Corporation and previous year figures have been re arrange wherever necessary to confirm the current year presentation.

Event After the Reporting Period

All the favorable and unfavorable material event after the reporting period have been considered and where appropriate adjustments or disclosures have been made in the financial statement.

Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future period affected.

5

ACCOUNTING POLICIES TO THE FINANCIAL STATEMENT

FOR THE YEAR ENDED 2019

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are described in the following notes:

Note 2 - Property, plant and equipment Note 5 - Trade receivables

Note 4 - Inventories

The accounting policies set out below have been applied consistently to all periods presented in this financial statements.

Financial instruments

Financial assets

Trade and other receivables

Trade receivables are measured at the UN-discounted amount of cash expected to be received (net of impairment) unless the arrangement constitutes a financing transaction. Sales are made on normal credit terms and trade receivables do not bear interest. When there is objective evidence that the carrying amounts of receivables are not recoverable, an impairment loss is recognized in profit or loss.

Cash and cash equivalents

Cash and cash equivalents are defined as cash in hand, demand deposits and short-term highly liquid investments readily convertible to known amounts of cash and subject to an insignificant risk of changes in value. For the purpose of the statement of cash flow, cash and cash equivalents consist of cash in hand, investment in fixed deposits and deposits in banks net of outstanding bank overdrafts that are repayable on demand and form an integral part of the corporation's cash management.

DE-recognition

Financial assets are DE-recognized only when,

- a) The contractual rights to the cash flow from the financial assets expire or are settled, or
- b) All of the risks and rewards of ownership are transferred to another party substantially.

Impairment of financial assets

At the end of the reporting period, all financial assets are assessed to ascertain whether there is any objective evidence of impairment. If there is objective evidence of impairment, impairment loss is recognized in the statement of comprehensive income immediately.

Financial Liabilities

The corporation's financial liabilities include trade, other payable and borrowings. Financial liabilities are recognized initially at transaction price. After initial recognition, they are measured at amortized cost using the effective interest rate method. Trade Payable are measured at the UN-discounted amount of cash expected to be paid unless the arrangement constitutes a financing transaction.

Provisions

Provisions are recognized when the corporation has a present obligation (legal and constructive) as a result of a past event, where it is probable that an outflow of resources embodying economic benefits

Ceylon Fisheries Corporation, Financial Statement for The Year Ended 2019

will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Initially a provision is measured at the best estimate of the amount required to settle the obligation at the reporting date.

When the provision involves a large population of items, the estimate of the amount reflects the weighting of all possible outcomes by their associated probabilities.

When the provision arises from a single obligation, the best estimate may be the most likely outcome.

When the effect of the time value is material, provisions are measured at present value of the amount expected to be required to settle the obligation using a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation.

In subsequent measurement, a provision is charged only against those expenditure for which the provision was originally recognized.

Non-Financial Assets

The carrying amounts of the Corporation's non-financial assets, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

Property, Plant and Equipment

The Corporation applies the requirements of LKAS 16 on "Property Plant and Equipment" in accounting for its owned assets which are held for and use in the provision of the services, for rental to other or for administration purpose and are expected to be used for more than one year.

Basis of Recognition.

Property Plant and Equipment is recognized if it is probable that future economic benefit associated with the assets will flow to the Corporation and cost of the asset can be reliably measured.

Measurement

Items of Property, Plant & Equipment are measured at cost (or at fair value in the case of land) less accumulated depreciation and accumulated impairment losses, if any.

Depreciation

Depreciation is recognized in Income Statement on a straight-line basis over the estimated useful economic lives of each part of an item of Property, Plant & Equipment since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Assets held under finance leases are depreciated over the shorter of the lease term and the useful lives of equivalent owned assets unless it is reasonably certain that the CFC will have ownership by the end of the lease term. The estimated useful lives for the current and comparative periods are as follows:

	No. of Years	Rate (%)
Buildings	50	2.00
Plant & Machinery	10	10.00
Motor Vehicles	5	20.00

- Locally manufactured Computer Software depreciate over one year which is 100% charge to profit & Loss account in the year of purchase.
- The assets which are received as grant are being amortized in accordance with depreciation rate.

Current Versus Non-Current Classification

The Corporation presents assets and liabilities in statement of financial position based on current/noncurrent classification. An asset as current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period Or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.
- A liability is current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period Or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Corporation classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Owned Assets

The cost of property, plant & equipment includes expenditures that are directly attributable to the acquisition of the asset. Such costs include the cost of replacing part of the property, plant and equipment and borrowing costs for long terms construction projects if the recognition criteria are met. The cost of self-constructed assets includes the cost of materials and direct labor, any other cost directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Purchased software that is integral to the functionality of the related equipment is capitalized as a part of that equipment.

When significant parts of property, plant and equipment are required to be replaced at intervals, the entity recognizes such parts as individual assets (major components) with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Ceylon Fisheries Corporation, Financial Statement for The Year Ended 2019

The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Capital work-in-progress is transferred to the respective asset accounts at the time of first utilization or at the time the asset is commissioned.

Borrowing Cost

Borrowing costs that are directly attributable to acquisition, construction or production of a qualifying asset, which takes a substantial period of time to get ready for its intended use or sale are capitalized as a part of the asset.

Borrowing costs that are not capitalized are recognized as expenses in the period in which they are incurred and charged to the Statement of Profit or Loss.

The amounts of the borrowing costs which are eligible for capitalization are determined in accordance with the in LKAS 23 - Borrowing Costs'.

Borrowing costs incurred in respect of specific loans that are utilized for field development activities have been capitalized as a part of the cost of the relevant immature plantation. The capitalization will cease when the crops are ready for commercial harvest.

The amount so capitalized and the capitalization rates are disclosed in Notes to the Financial Statements.

Investment Property

Investment properties including freehold and leasehold properties are properties which are held either to earn rental income or for capital appreciation or for both. Investment properties are held at cost. Rental income from investment properties is accounted for as described in accounting policy

An external, independent property valuer, having an appropriate recognized professional qualification and recent experience in the location and category of property being valued, is hired to carry out the valuation on a five yearly basis. Increments and/or decrements to these property valuations are recognized in profit or loss.

Expenditure incurred to replace a component of an item of investment property, that is accounted for separately, including major improvements, renovations and overhaul expenditure, is capitalized. Other subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of investment property. All other expenditure is recognized in profit or loss as an expenses as incurred.

<u>Inventories</u>

Inventories were consisting of two main segments such as Trading and General Stocks. Trading inventories include fish, dry fish and ice stocks and it has been valued at cost or net realizable value, whichever is lower. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses and non-trading stocks are valued at cost. The cost of inventories is based on the weighted average principle and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition.

Cash and Cash Equivalents

Cash and cash equivalents comprise of cash at bank and cash on hand. Bank overdrafts that are repayable on demand and form an integral part of the Corporation's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

ACCOUNTING POLICIES TO THE FINANCIAL STATEMENT

FOR THE YEAR ENDED 2019

Equity Capital

Equity

Capital represents the amount of Funds contributed by Government to commence the Corporation operation from the beginning of establishment.

Reserve

The amount consists in the reserve balance coming from the beginning of the Corporation, which has no indication of reason of provide the reserve or way of utilize the reserve.

Trade, Other Payable and Provisions

Trade and other payable are not interest-bearing and are stated at cost. A provision is recognized in the statement of financial position when the corporation has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Capital Work-In-Progress

Capital work-in-progress represents the accumulated cost of materials and other cost directly related to the construction of an asset.

Capital work-in-progress is transferred to the respective asset accounts at the time of the first utilization of the asset.

Government Grants

Government grants are recognized where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

Where the corporation receives non-monetary grants, the asset and the grant are recorded gross at nominal amounts and released to the Income Statement over the expected useful life and pattern of consumption of the benefit of the underlying asset by equal annual installments. Where loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as additional Government grant.

Grants related to Property, Plant & Equipment other than grants received for forestry are initially deferred and allocated to income on a systematic basis over the useful life of the related Property, Plant & Equipment as follows: Assets are amortized over their useful lives or unexpired lease period, whichever is less.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the corporation and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at fair value of the consideration received or receivable, taking into account the contractually defined terms of payment and excluding taxes or duty.

The following specific recognition criteria must also be met before revenue is recognized:

- a) Sale of goods Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buver.
- b) Interest income Interest income is recognized on an effective interest method.
- c) Other income Other income is recognized on an actual basis.

Foreign Currency Transaction

Transactions in foreign currencies are initially recorded at the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are re translated at the functional currency rate of exchange ruling at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. The resulting gains or losses are accounted for in the statement of comprehensive income.

Contingent Assets and Liabilities

Provision for Contingent assets are not recognize in financial statement since this may result in the recognition of income that may never be realized.

Contingent liability is a potential liability that may occur, depending on the outcome of an uncertain future event. A contingent liability is recorded in the accounting records if the contingency is likely and the amount of the liability can be reasonably estimated. However Contingent liability has not been provided since CFC Legal Division did not provide any estimation.

Define Contribution Plan

Ceylon Fisheries Corporation contributes 15% and 3% from the Employee's salary to the Employee's Provident fund and Employee's Trust Fund Define respectively. This statutory expenses has been recognized in the Statement of Comprehensive Income.

Other Disclosures

Voluntary Retirement Scheme has been implemented by the Corporation in line with the cabinet decision to reduce the excess staff by considerable amount and further advised to restructure the corporation by way of public Private Partnership (PPP).

New accounting standards issued but not yet effective

The following SLFRS issued by the Institute of Chartered Accountants of Sri Lanka, not effective for a financial year commencing on the 1st January 2016 unless early adopted, have not been applied in preparing these Financial Statements.

a) SLFRS 9, issued in 2014, replaces LKAS 39 – Financial Instruments: Recognition and Measurement. SLFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and DE-recognition of financial instruments from LKAS 39.

SLFRS 9 is effective for annual reporting periods beginning on or after 01st January 2018.

b) SLFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. New qualitative and quantitative disclosure requirements aim to enable Financial Statements users to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

SLFRS 15 introduce a five-step model to determine when to recognize revenue and at what amount. The model specified that revenue recognized when or as an entity transfers control of goods and services to a consumer at the amount to which entity expects to be entitled.

It replaces existing revenue recognition guidance, LKAS 18 on "Revenue", LKAS 11 on "Construction Contracts".

SLFRS 15 is effective for annual reporting periods beginning on or after 01st January 2018.
