Schedule		Accounts Activities	

This publication is an appendix to the Appropriation Bill 2024 and consists of the following parts.

- 1. □ Revenue Estimates
- 2. □ Expenditure Estimates

2.(a). General Estimates

General Estimates consist of budgetary provisions made under the First Schedule and the annual appropriations under the Second Schedule of the Appropriation Bill.

2.(b). Advance Accounts Activities

The limits fixed for the advance accounts activities indicated under the Third Schedule of the Appropriation Bill is included in this part. Difference between the receipt of the advance accounts activities and the expenditure of the same will be the annual expenditure charged to the consolidated fund.

The expenditure estimates summarized in the Appropriation Bill are structured under the standard revenue and expenditure codes and are presented as a detailed explanation in these estimates.

1. Revenue Estimates

The total revenue including tax revenue, non-tax revenue, Provincial Councils' revenue and grants is estimated to be at Rs. 4,259 billion for 2024. The statutes and regulations relevant to each revenue code are given in Table 3.1.1, Table 3.1.2 and Table 3.1.3. Table

3.2.1, Table 3.2.2 and Table 3.2.3 indicate the provisional revenue for 2022, revised estimate for 2023, estimate for 2024 and projections for 2025 and 2026.

Revenue estimates of 2024 are based on the actual revenue collected up to September 2023, the assumptions regarding emerging economic trends including the gradual recovery of the economy in 2024, deceleration of inflation, and stabilization of Sri Lanka Rupee, and the staff's best judgment about performance of the economy and revenue.

The broad assumptions are as follows;

	•
• 🗆	The economy is expected to grow by 1.8 percent in 2024 with the picking up of economic activities. The growth is driven by expansion in the industry sector facilitated by better input availability, as well as the anticipated growth in agriculture supported by the uninterrupted grant of fertilizer subsidy and availability of other inputs. The expected growth in the services benefitting from the favourable economic conditions and the expected surge in tourist arrivals and remittances will also facilitate economic growth.
• 🗌	The average inflation is expected to be maintained at an average of single-digit level at 7.9 percent in 2024.
• 🗌	The unemployment rate is expected to be below 5.0 percent in 2024.
• 🗌	Exchange Rate is expected to be stable in 2024.
• 🗌	Export growth is expected to continue with the enhanced external demand, particularly from major trading partners and easing off of supply-side restrictions.
• 🗌	The imports are expected to improve due to the relaxation of import restrictions and thereby an increase in revenue from import-based taxes is expected.
• 🗌	The profitability of the financial sector is anticipated to improve.

Accordingly, each Head of Department shall be the Accounting Officer in respect of all financial activities of his/her department, unless any other arrangement is made by the Treasury in terms of F.R. 125(1)(a).
